

Fall Garden Planning

Eric Baker
Estill County Extension
Agent for Agriculture
& Natural Resources

It's time to start planning how you can continue to enjoy your garden and even add new plantings. You can plant a variety of produce in Kentucky gardens in the coming weeks allowing fresh items to be available well into the fall.

The cooler nights experienced later in the year as

these vegetables mature may increase the sugar content of many crops and thus increase their quality. Cooler nights also slow growth, so crops can take longer to mature than in the summer. Keep this slower pace in mind when you check seeds for days to maturity.

Late July or early August would be the time to make a last planting of bush beans, carrots, sweet corn, kale, collards, Bibb lettuce, turnips, and cole crops such as kohlrabi, Chinese cabbage, Brussels sprouts, cabbage, cauliflower and broccoli. For late August and into September try planting mustard greens, spinach greens, radishes, turnip greens and leaf lettuce.

Before planting, remove any existing debris including crops and weeds to the compost bin and cultivate the soil.

If the previous crop was

well fertilized and grew vigorously you may need to add little if any additional fertilizer, otherwise apply about 2 to 3 pounds of a complete fertilizer such as "5-10-10" or "10-10-10" per 100 square feet of planting area.

Remember to keep fall gardens well watered as this tends to be a fairly dry time in Kentucky. A weekly irrigation sufficient to wet the soil to 6 or 8 inches should be adequate.

This is more or less equivalent to a weekly one-inch rain.

To learn more about fall gardening options, contact the Estill County Cooperative Extension Service at

723-4557.

If you want to buy locally grown vegetables, eggs, pork, and other items, the Estill County Farmer's Market is open Tuesdays 3:00 p.m. to 6:00 p.m. (except second Tuesdays which is Senior Discount Day and is open 11:00 a.m. to 4:00 p.m.) and Fridays 8:00 a.m. to noon. The market is located at the Estill County Fairgrounds off South Irvine Road. Call 723-7101 for more information.

Educational programs of the Cooperative Extension Service serve all people regardless of race, color, sex, religion, disability or national origin.

Pink ladies slipper is a wildflower related to the orchid family.

To reproduce, its seeds (which have no food supply of their own) must interact with a fungus in the soil, which breaks them open and passes on nutrients (the fungus later receives food from the mature plant).

This plant flowers in early summer, ranging from magenta to almost white. Its root was once commonly prepared and given for a range of maladies.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.
