Water is essential to countless parts of our daily lives and it has never been more evident to me, and I'm sure many other people, than all the boil water advisories and critical water shortages was fortunate enough to only have been without water for that was enough for me to see how much I use water! I kept finding myself going to the faucet to wash my hands or rinse something off only to have no water. We often think of water as a never-endus never have to do without it's brown, flush it down! it, but these water shortages remind us that water is only a limited resource that we need to conserve and protect! Just think, we need water for health, hygiene, cooking and recreation. Our agriculto raise plants and animals. Other industries use it to produce goods and services of water we've used.

Tips To Conserve Water Around Your Home

bit helps! Here they are:

• The shower and batholder shower head.

• Limit your showers to less water. the past few weeks due to five minutes or less. Short showers use less water than a tub bath; so when taking a we have had in the county. I bath, put only five inches of your washing machine. This water in the tub.

Pretty Delicious in Pink by ANGELA SHELF MEDEARIS and GINA HARLOW

Get ready to pucker up. Because it's time for rhubarb - a sweet, tart treat. Loved by many, and misunderstood by more than a few, rhubarb with its deep-pink stalks is often a little hard to find. But keep searching because this jewel of spring is not to be missed.

Rhubarb can be a rare discovery, even when in season. For many, it's still a taste never tried. Others may have tasted rhubarb that had fallen into the wrong hands, leaving them with an unfortunate first impression. So why doesn't this lovely fruit have a wider appeal? For starters, it's not technically a fruit, but a herbaceous perennial vegetable. However, in 1947 a New York State court decided that since it was most frequently used as a fruit, it would be classified for regulation and duty purposes as such.

Rhubarb is at its best when the stalks are thin, red and have a crisp texture. If the stalks are floppy, it means that it's not freshly picked. Wrap rhubarb stalks in plastic and refrigerate for up to a week. Rhubarb also is sold frozen in some areas and can be used in place of fresh.

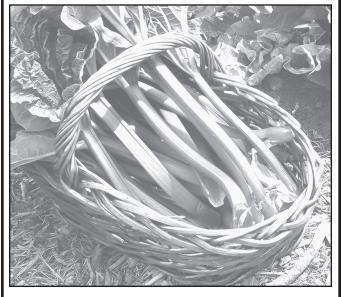

It's true that some parts of the plant are poisonous. The colorful stalks are what we eat, but the leaves contain toxins. This usually is not a problem, as the rhubarb in the market already has the leaves removed. Those lucky enough to have their own rhubarb plant know about this minor imperfection and handle it appropri-

The lip-puckering, tart flavor of rhubarb also requires some getting used to. Some varieties are sweeter than others and can be eaten raw, but that's not common. Rhubarb really comes alive when it is cooked, either stewed or roasted, and mixed with other ingredients. In sweet and savory dishes, this tart vegetable lends a special flavor that can't be compared to anything else.

Its gorgeous pink color is an indicator that rhubarb is full of antioxidants, as well as calcium and fiber. Rhubarb will keep in your refrigerator for up to a week, but to enjoy its full flavor, use it right after buying or harvesting.

Rhubarb is often called the "pie plant." It is delicious when mixed with strawberries and other fruit in pies and cobblers. It's also good in relishes and compotes, and in dishes that showcase its tangy flavor.

Rhubarb is the star of this recipe for Pork Chops with Spicy Rhubarb and Golden Raisin Sauce. The tartness of the rhubarb combined with the sweetness of the raisins is the perfect complement for the richness of the pork chops.

Pork Chops with Spicy Rhubarb and Sauce

1/2 cup golden raisins

1 tablespoon balsamic vinegar

1 tablespoon Worcestershire sauce

1 teaspoon plus 2 tablespoons olive oil

1/2 cup finely chopped onion

2 cloves garlic, minced

1/2 small jalapeno, with ribs and seeds, diced 8 to 10 ounces rhubarb, ends trimmed, cut crosswise into 1/2-inch pieces (2 cups)

3 tablespoons sugar

1/8 teaspoon ground nutmeg

1 1/2 teaspoons salt

1 1/2 teaspoons ground pepper

2 tablespoons poultry seasoning

4 pork loin chops, (each 1/2 inch thick and 6 to 8 ounces) 1. In a small bowl, combine raisins with vinegar,

Worcestershire sauce and 1/4 cup hot water; let stand 10 minutes to soften. 2. In a small saucepan, heat 1 teaspoon oil over me-

dium-low heat. Add onion; cook until softened, 3 to 5 minutes. Add garlic and jalapeno and cook for another 3 minutes, stirring occasionally. 3. Add the rhubarb and sugar; and bring to a boil.

Reduce heat; simmer until rhubarb has softened, 5 to 8 minutes. Stir in nutmeg; season with 1/2 teaspoon of the salt and pepper. Remove from heat; keep warm.

4. Generously season both sides of pork chops with the remaining teaspoon of salt and pepper, and the poultry seasoning.

5. In a large skillet, heat remaining 2 tablespoons oil over medium-high heat. Cook pork (in two batches, if necessary, to avoid crowding the pan) until browned and cooked through, 3 to 4 minutes per side. Serve topped with the warm Spicy Rhubarb and Golden Raisin sauce. Serves 4.

TIP: The golden raisins can be replaced with other dried fruit, such as cherries or currants and softened as
