

Eric Baker Estill County Extension Agent for Agriculture & Natural Resources

Humans aren't the only ones that suffer from the heat of summer. Farm animals feel the heat, too. With summer temperatures already upon us, it's time to think about ways to know when your livestock may be in danger from the heat and what to do to reduce their plight.

Center provides warnings uncomfortable when the heat index reaches about 90 degrees. The heat index is a for buildings to be as open as

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

əl he 🔊 The **avocado** is the pear-shaped fruit of a tree cultivated in Central America for many Jarden thousands of years. Its silky texture is due to its high fat content. Sailors called them "butter pears" and spread the soft flesh on food. To grow your own, take the seed from one avocado, wash it, and use three toothpicks to suspend it, broad-end down, over a glass of water, with half of the seed resting in the water. Put the glass in a varm place out of direct sunlight and replenish water as needed. - Brenda Weaver Source: about.com, californiaavocado.com © 2016 by King Features Syndicate, Inc.
