## Fiscal Court Meets Continued from Page 1

Judge Anderson said a tourist spends \$60 to \$100 a night in our community. He added the DBBB will bring tourists year round unlike the hiking trails, which are seasonal.

Estill Judge/Executive Wallace Taylor said the county road foreman would check the location the next morning and see if it is on the county road map.

"Just because it's not a county road, doesn't mean it's not a public passway," said County Attorney Rodney Davis.

If the cabled area is in the county road system, Davis will send a letter to the property owner to open the road.

All agreed the Mt. Springs Cemetery Road is complicated because it meanders between Estill and Powell counties.

An area for unlicensed vehicles, such as ATV's, also opened in 2016. It is known as Hollerwood Park.

Kathy Watson, librarian at the Estill County Public Library, addressed the fiscal court as she is required by law to do after tax rates are set.

"I'm very proud of the services we offer to the county," she stated.

Watson said the 39-year-old library has outgrown its 5,700 sq. ft. building on Main Street. They are looking to expand to at least 12,000 square feet.

Because the present library was built on a swampy area, it will be difficult to expand at that location. The library board is looking at several options.

Another obstacle is the cost of a new library. Money for library construction has been appropriated by the general assembly but not enough.

Watson said in the past, library board members have been setting aside funding for construction.

After a short discussion, the fiscal court voted to advertise for temporary county road employees.

Taylor said the road department is down to "bare bones" after an employee recently resigned to take a job in Madison County.

He stated one employee is off from the recycling center and three are off with injuries from the road department. He has no idea when Workman's Comp will allow any of the injured employees return to work.

Magistrate Gerald Rader said he thinks the employees at the road department are paid well.

The judge said the county is approaching winter and will need more employees for snow removal.

Taylor said not many places will let you work four days a week, 175 days a year. The four days are each ten hours long.

The magistrates then agreed to purchase a back hoe from John Deere, the lowest bidder. Taylor said the old back-hoe may bring \$15 to \$20,000.

Annual reports were accepted from the Conservation District, Chamberlain Branch Watershed, and Red Lick Watershed.

In the judge's address, he said road work was beginning Tuesday at Lafayette Estates. The road at Eck Hollow has been completed.

He mentioned going to court to hear a motion for dismissal on the county's lawsuit over T-norm.

"We'll probably be in court every month for several months to come," he said.

Another motion for dismissal is on the docket for Thursday, Oct. 6. This one is being requested by Advanced Disposal.

into the prohibitions section of the fundraising policy.

"In 20 years in the athletic administration, the number one complaint I get is that people are standing in the road," stated Arthur Ballard.

"We've got great booster clubs and great parents, let's just take away this liability," said Mr. Saylor.

The board went on to discuss and approve a Go Fund Me account. According to Angie Howell a separate bank account would have to be opened up in order Fund Me website. Mr. Say- required to pay \$25. lor explained that a group

#### it was time for some 'fresh eyes' on the board.

In consent items the board approved an extracurricular art teaching job at West Irvine, approved Bass Fishing as an extracurricular activity, approved a school wide fundraiser for West Irvine, and approved the GEAR UP partnership with Berea College, as well as many other items.

The board meeting adjourned and went into closed session pursuant to KRS 61.810, paragraph (c), discussions of proposed or pending litigation against or on behalf of the public agency. Superintendent Saylor reported that no action was Patty Hood stated that she taken during closed session.
