In the Beginning!

FYI - The antibiotics has kicked in and doing a good job fighting off my Lyme disease. I feel so much better. Thanks for all the prayers that went up.

Genesis 1:1

"In the beginning God created the heavens and the earth."

Have you ever thought about those words? Before the beginning of time there was a void. There was nothing except for God. That might be a little tough to wrap your mind around. The void or nothingness before the beginning proves there is a God! I will get to that a little later.

So, I went outside the other night and just stared at the stars. It was a clear night so I could see the vast number of stars clearly. I enjoyed seeing the hand of the creator. I mean that kind of beauty just don't happen. It is created from a Grand Creator.

I have been blessed to see the endless ocean and the giant Rocky Mountains. The Ocean and Rockies make you feel small. In the scheme of things, I am just a tiny dot in a vast creation. Even being this tiny dot in a vast creation, I have a Heavenly Father who loves me and cares for me as an individual.

The Heavenly Father loves and cares for every single person in his creation. The Heavenly Father wants a relationship with every single person.

In the beginning God created the Heavens and Earth. At some point, there was nothing. Everyone will agree with that; even the anti-God scientist. The people who say there is no God have a major flaw in their argument. You see, if you have nothing and add it to nothing you get nothing. So in order to have something there has to be creator.

In the beginning God created the Heavens and Earth. That is what I believe and know 110%. I also know and believe he gave his only begotten son to die on a cross for our sins. There is nothing that will convince me otherwise. One look at the night sky, seeing the Rockies appear on the horizon, looking at the endless ocean, or a new baby being born, proves there is an awesome creator!

Take a little time on a clear night to look at the stars. I promise you will be glad you did. It's also a great time to talk to the one who created it all!

Until next week, get out and enjoy God's creation!

It is easy to grow **coreopsis**, also known as tickseed or pot of gold. Sprinkle seeds over a prepared area of un-amended soil in spring in a full-sun location. Seeds of coreopsis plants need light to germinate, so cover lightly with soil, or simply press seeds into moist soil. Keep the seeds of coreopsis plants watered until germination, usually within 21 days. Once flowers are established, cut off spent blooms so the plant produces new flowers.
