

Arthur David Ballard

Republican Magistrate District #1

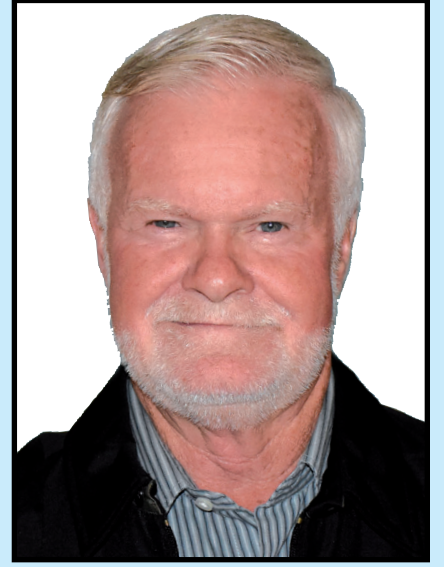

I would like to ask for your vote and support in the upcoming election to allow me to represent the people of District 1 and the people of Estill County as a member of the Fiscal Court. I believe it is our duty to do our part to make our community a better place for all of us to live. I believe this is extremely important to the youth and children of our community. It is vital for all of us to do what it takes to make this a better place to live and raise our families. If we are to keep our young people here, it must be a place that is better than others to live; be safer than surrounding counties, and provide an equal or better education. It was my privilege to serve the students and citizens of Estill County for over 32 years as a teacher, coach, and administrator for the Estill County Schools. After retiring, I began to look for other ways that I could serve our people and community. I believe that I have the experience and skill set to help make a difference in our county in the coming years. We have a lot of tough decisions that must be made in difficult financial times for small counties like ours. We must balance our budget and tighten the purse strings to make savings but at the same time continue to offer and improve services to our citizens. I believe this is possible and a must if we want to stop the exit of people from our community. I only make one promise, to work hard with the other members of the Fiscal Court to make our community the best it can possibly be. Your vote and support would truly be appreciated.

Paid by Arthur David Ballard

GERRY FLANNERY

for Magistrate District 3

1. My name is Gerry Flannery. I'm a candidate for Magistrate, District #3. I'm married to Mary Ann Hamm Flannery. We have two children and two grandchildren.
2. I have worked for the people of Estill County for 40 years through Jackson Energy. I also spent many years helping the people of Estill County by volunteering for the Fire Department and Ambulance Service. During my many years as a volunteer, I served as the Estill County Fire Chief, Ravenna Fire Chief, and Chief of the Rescue Squad. Through my years as a volunteer and working for Jackson Energy, I got to know all the County roads. I'm now retired but I would like to continue serving the people of Estill County as your Magistrate of District 3. I consider the Magistrate position as a full-time role, and I will work hard for everyone in my District.
3. I support all Emergency Services, the Road Department, and the Senior Citizens program. Several duties of a Magistrate include appropriations of funds required by law to construct, operate and maintain all County buildings and properties. The Fiscal Court must adopt a budget and hiring for each department. One of the primary functions of a Magistrate is roads, to maintain existing roads to be resurfaced and to adopt new roads. There must be a road plan put in place each year. I know all the roads, and I will be a full-time Magistrate available to check roads and take calls. My phone number is in the phone book and on all my cards and signs.
4. When you vote as a Magistrate on the budget or any County business, you need to vote what is best for your District and Estill County. As a Fiscal Court, you need to work hard on bringing growth into Estill County. I ask for your vote on November 6.

Paid for by Gerry Flannery for District #3 Magistrate

Estill County Voters:

This will be my last appeal to you by newspaper before the General Election next Tuesday, November 6th. I have traveled around our county and tried to see as many of you as possible and I will continue to do so until election day.

Most of you know where I've worked, what I've done, and how I've lived. You know how I've conducted myself, both in office and out. Many of you know my record as County Judge/Executive and the things we were able to accomplish.

During my last administration, land was acquired from Southeast Coal Company for an industrial park. Carhartt was getting ready to build their new factory there when I left office. The Industrial Park remains empty today except for Carhartt.

While talking to different people around our County, a number of issues are on their mind – the growing drug problem, no jobs, roads falling apart, and an unfinished park; among other issues.

Our problems will not be solved overnight. However, I will work with other officials and the different agencies as we try to diminish and curb the destructive drug problem.

I will do everything I can to try to get more industry into our County.

I know our roads, I see the problems, and I will work with the Magistrates to make improvements.

I know our County, I know a lot of our people, I am concerned about our children and their future, and I will work as hard as I can to make Estill County a better place for everyone.

**Thank You,
May God Bless Estill County**

Vote for and elect Donnie Watson
