## **School board** schedules a meeting for Thursday to hear concerns

#### **Continued from Page 1**

He also said that they have made cuts in almost every area possible and the issue is the decline in enrollment.

He added that if things continued going south with the budget, then they would have to look at making cuts at Central Office and that even though most of those jobs are specific jobs they would have to look at possibly combining some of them in the future.

Options for the school calendar for the 2018-2019 school year had been posted on social media to allow individuals to vote on what they felt like was the best option.

Beckley made a motion to accept option #4 which would give students a two day fall break, two full weeks off at Christmas, and a full spring break. The board could not come to an agreement on the calendar and decided it would be best to put the survey back up and let people vote again and then make a sues. decision at the meeting in March.

Mr. Saylor said that the problem he had with the current time is that some students are being picked up at 6 a.m. by the school bus. should be picked up before 6:30 each morn-

Beckley asked if this new time would affect people who worked in Richmond or Lexington and if there would be adequate Saylor. staff at the schools for those who dropped their student off. Saylor replied that there KRS 61.810 for the purpose of discussion would be adequate staff there and that per district policy each employee is supposed to arrive at work 30 minutes prior to the start of

She said that she knows Holly Wiedemann who does nothing but revitalize old school buildings and turns them into apartments and that she does wonderful work. Irvine Grade School Apartments is one of those projects and Williams asked the board if they would revisit the possibility of selling the building for a similar project.

Joyce Rifenbark, a concerned parent, spoke to the board about some issues that had happened at the high school in the previous week. Rifenbark stated that she was very concerned about sending her four children to school since there had been so much going on at the high school. She said that she had even kept them at home on Monday because she didn't feel like it was safe to send them to school. Rifenbark asked the board if they would consider holding a special meeting with parents to discuss some of those is-

Superintendent Saylor said that there had The board approved for the start and end been one direct threat this week made by a times to be changed for the new school year. student to another student and there had been some social media posts that were questionable and they were taking those things very seriously. He added that there was no con-He said with the new start time no student spiracy going on and that he didn't care who the student was, even if it was the child of a board member, they were all going to be handled the same way.

The board went into closed session per which may lead to the appointment, discipline, or the dismissal of an individual student or employee.

# **Community Prayer Service**

#### Continued from Page 1

He stated the Gideons pass out New Testaments to fifth graders and high school graduates.

Bonny said the Supreme Court has ruled that teachers cannot lead Bible readings and prayers.

But he said any student or employee can do so.

"Why do people wait to the last minute to pray?" asked Pastor Wesley.

He stated the churches have been silent for too long.

"Prayer is usually the last thing we resort to," he stated. "It should be the first thing."

Wesley referred to the recent school shootings.

"It's a sin problem," he stated. "It's not an AR-15 problem. "Prayer is a warfare."

He mentioned that children should honor their parents, and everyone should respect the president, the leaders of the county, and their pastors.

Pastor Bill Wesley of Body of Christ spoke during Saturday's Community Prayer Service.
