Mental Health Awareness

Mental illness is more prevalent than most think. It has been reported that one in five Americans experience some form of mental illness in their lifetime. Mental illnesses are as real as other physical illnesses and they can be treated. By acting early and effectively many of the mental illnesses can be prevented from progressing or even occurring in the first place. Education and awareness are essential parts of eliminating the mental health stigma. Mental illness does not discriminate. It effects all ages, races, cultures and genders. Come learn more about breaking down the stigma and be a part of open discussions on mental health issues in your community.

This lesson will be held at the Estill County Extension Office on Monday, August 27, 2018 at noon. This program is free and open to the public. All are welcome to attend this lesson presented by Kay Denniston, Bourbon County Extension Agent for Family & Consumer Sciences. If you would like to sign up to attend this program, please call your Family & Consumer Sciences Agent, Thays Flores at 606-723-4557.
