Maudie's Naughties

Gift Horse

A young pastor at a local church is given a horse by one of his church members, so, he rides it over to show to his father. The old man looks the horse over thoroughly and remarks that it seems to be very aged and sickly.

"Well," says the son, "I think its far better than the donkey that our Master rode into Jerusalem two thousand years ago."

"I don't know," replies the father. "I think it might be the same animal."

Guide Dog

A man is walking through "The Ravine" at Eastern Kentucky University one morning when he notices a young, blind woman struggling with her guide dog. The animal is pulling in one direction and she is pulling in the other.

When the man offers his assistance, the woman says, "No, thanks! This is a family argument. The dog knows it's time for my next class, but I was planning on skipping today."

Handle It Like A Dog

Handle every stressful situation like a dog. If you can't eat it or play with it, pee on it and walk away.

How About A Drink?

A dog walks into a bar and says, "Hey, guess what? I'm a talking dog, ever seen a talking dog before? I doubt it! So... how about a free drink for the talking dog?"

The bartender answers, "Sure, why not, the toilet's right around the corner."

Menu Picker

A really picky man studies the menu long and hard, and finally turns to the waiter for help.

"Well," says the waiter, "Today, our special is chicken on a bed of wild rice with green beans almondine and a nice side salad."

"That sounds great. How is your chicken prepared?"

"We break it to him very gently," replies the waiter. "And tell him it's nothing personal."

Escaped Parrot

Barbi calls up 911 one day to report her parrot is missing.

"Lady," says the emergency operator. "This line is for life and death emergencies only."

"This is a life and death situation," replies Barbi. "I'm worried that some of the things my parrot says will put him into a dangerous situation."

"Lady," says the operator. "What could you have taught the parrot to say that would put his life in danger?"

"Here, kitty, kitty!"

Lost Gas Cap

Trixie fills up her car at a local self-service station, but when she drives away, she leaves her gas cap on top of the car and it rolls into the weeds on the side of Richmond Road.

She decides that other people have done the same thing, so if she doesn't find her gas cap, maybe she'll find another one that will fit. She hasn't been searching long when, sure enough, she finds a gas cap. She tries it on, and it goes into place with a satisfying click.

"Great," she thinks, "I lost my gas cap, but I found another one that fits. And this one's even better because it locks."

How Can I Be Sure?

Trixie adopts a stray cat and decides to have it neutered. So, she calls up a vet friend.

"Are you sure he hasn't already been neutered?" asks the vet. "Since he was a stray."

"It's really hard to tell by looking," says Trixie. "Is there any other way to tell?"

"Watch to see if he does any 'male' things," says the vet.

"He already lies on the couch all day," says Trixie. "If I catch him hogging the remote, I'm bringing him in."

Lifesaving event planned for Tuesday, October 15 at 5:30pm

Ladies Night Out for Breast Cancer Awareness

Mercy Health - Marcum and Wallace Hospital is planning a Ladies Night Out for Breast Cancer Awareness on Tuesday, October 15 at 5:30 p.m. at Rice Station Christian Church located at 1675 Rice Station Road in Irvine.

This free event will feature a presentation on breast cancer risks and women's health. All ladies who attend will receive a free dinner, gift and door prize chance. Please sign up for the free event by Thursday, October 10 by calling 606-726-8185.

"While breast cancer affects people throughout the year, October has been marked as breast cancer awareness month. It's used as a reminder to make sure women are keeping up with preventative and early detection measures", said Marcum and Wallace Hospital Director of Radiology Sharon Whitaker. "It

is so important for women to get annual mammograms and be proactive about their health."

Marcum and Wallace Hospital expanded radiology services in October of 2017 with the addition of 3D mammography, the newest screening and diagnostic technology for breast cancer detection. The funding for 3D mammography was provided by Mercy Health Foundation - Irvine.

Speak with your healthcare provider about your annual mammogram. The Marcum and Wallace Hospital Radiology Department uses only the highest quality digital mammography (2D/3D) and breast ultrasound to get fast, accurate results. Provider and self-referrals accepted. Free gift for mammograms in October (while supplies last). Call 606-726-2106 to schedule your mammogram.
