Farm Record Keeping Is Vital

Software has become more user-friendly over time, and while it may not make the record keeping process fun, it could help you see the overall picture of your operation. Some programs track purchases of inputs and how you use the input on a particular enterprise or field. You'll be able to keep track of repair and maintenance records for specific farm equipment and produce balance sheets, income statements and cash flow budgets.

The University of Kentucky College of Agriculture, Food and Environment's Department of Agricultural Economics has several tools online that could help with budgeting and decision making. Visit <http://www.uky.edu/Ag/AgEcon/ext-fuels.php> to see what is available.

If you prefer to keep records on paper, we have the Kentucky Farm Record Books available. Farmers can get their first record book for free and additional copies for \$2.50 each. The record book format allows you

to transfer numbers to the "IRS Schedule F" easily. For more information, contact the Estill County Extension office at 723-4557.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

Birding BITS BY Cindy Brook

Water in the Winter
Jacque from Wyoming knows the importance of birds and water, so he bought a dog dish with heater under it to make sure the birds have plenty during the winter months. The dish is 4 inches deep and 10 inches wide and is placed near (not under) his birdfeeders. Thanks, Jacque!
